PlasmV TR

Interactivity with dimension

The PlasmV TR model was designed for both indoor or outdoor applications.

This model can be manufactured in stainless steel or painted steel (available in all RAL colors) using steel plate of 1,5mm to 2,5mm which ensures the stability and rigidity of the all structure.

This Kiosk is designed specialy for multimedia advertising purposes and support large displays (32" to 108"). The two sides of the kiosk are designed so that there is a great vesatility. This particular model has three connected modules, because has two large monitors, making a triangle and increasing the visibility up to 180 degrees. It is fantastic for outdoor spaces where you need a wider field of vision. (ex: intersection of two streets)

The area where the PC will be installed has security locks, general switch and is easily detachable, leaving enough space for the installation and access to a minitower PC.

On the side of the monitor are two speakers and the kiosk has 2 independent systems of ventilation, one for the monitor and other for the PC.

The PlasmV TR is normally equipped with a Atom CPU with a 160 GB hard drive, 1 Gb Ram Memory, a 128Mb graphic card and a 10/100 mb ethernet, Windows 7 Starter.

This kiosk can be produced with glass protection (top and 2 laterals) for outdoor enviroments.

Technical Specifications PlasmV TR Kiosk

Dimensions: H2225 x W1600 x D1120
Weight: aprox. 180 Kg.
